SIR

SUBJECT —Sanction of Government Grant, re purchase of two 7½ H P Motors - Davangere Water Supply

---

I have the honour to state the Davangere Town Municipal Council have resolved at their meeting held on 6th October 1941 to purchase two 7½ H P Motors for the use of the pumping plant for the Davangere Water works and that Government be requested to grant half the cost of this expenditure (vide resolution copy enclosed for kind reference)

2) The necessity of purchasing the motors of the above kind has been explained by the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore in his letter No 232 dated 19/21st August 1941 addressed to the Municipal President, -- Davangere (vide copy enclosed) The Sanitary Engineer states that a 7½ H P Motor is likely to cost about Rs 600/- to -- Rs 700/- The cost of the 2 7½ H P motors would be about Rs 1400/-

3 The Municipal President requests that Government might be addressed to sanction the moiety of cost

4 In these circumstances, I request that sanction of Government may kindly be obtained to grant a moiety of the cost viz , Rs 700/- from out of the current year's water supply grant, to enable the Lavangere Town Municipal Council for purchasing the two (7½ H P) Motors as suggested by the Sanitary Engineer, Bangalore

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Chitradrug Dist

CRR 20/10/41

Letter o 232 dated 19/21st ugust 1941 from the Sanitary ngineer, in Lysore, Ban alore to the President, to n Municipal Council, Davan ere in the matter of Pumping Plant for Davan ere ater works

---

I have the nonour to state that the machinery indented for in connection wit + 1 e Electrification of the Pumping station at arihar include two oto s of 7½ H P for drivin the wash mechanism of the gravity filters there These two motors vere ordered from Messrs, The Associated Electrical Industries(India)Ltd , The firm intimate this office tha the ship which was conveying these motors has been sunk and this fact has been reported to you in this office letter o 14 dated July,2,1941

Purchasin the two twin/cycle motors from the foreign market would take a very long ti e under the present unsettled condition and if motors that can run on 220v 25c cu rent are installed at present, arra ements nov to b made to change them over to 50c at a later date , this will necessiti ate the installation of the step-down transformer bank which will cost about s 2,000/- as per letter o 3613 dated August 14,1941 from the Chief Electrical Engineer in Lysore, copy of which is enclosed herein for read r r rence

A 7½ H P Motor is li ely to cost about s 600/- to 700/- so that the cost of the two such motors will be less than the cost of the transformer referred to above gain under the present unsettled conditions of the market, it is not possible to estimate the length of time that would be required for obtaing the 50c at Davangere Under these circumstances, I recommend that two 7½ I P motors running on 220v 25c 3 phase alterrating current may be installed i mediately at arihar to enable both the filters being taken into service, and when 50c current is made available, they may be sold at any value that they may fetch after replacing them by 50c motors of the required specifica ion This arrangement seems to be cheapest and I would request you to kindly intimate your acceptance to the same to enable me to take necessary actio to address the Secretary,

J 7 0

Secretary, Stores Puchase Committee to call for quotations for 7½ H P Motors

In this connection I invite reference to your letter No G C 520/40-41 dated June,1,1941 where you have intimated that the Municipal Council have accepted the installation of only one motor temporarily The installation of only one motor will not serve any useful purpose, since the capacity of either of the filters installed at Davangere is not equal to the capacity of the High Lift pump and without the installation of two motors, it will not be possible to filter all the supply

Ml File No 75 of 1941/42 [App F III—2

Serial No

From The D C Chitaldrug Dist
Letter No A6-C 1534/41-42 dt 18th Dec 1941

Recommends sanction to a Govt grant of Rs 700/ being a moiety of the estimated cost of Rs 1400/ for purchasing 2 motors of 7½ H P for the use of the pumping plant of the Davangere water works out of the reserve under the water Supply Grants for the Current year

1) It is reported by the Sanitary Engineer that the installation of only one motor will not serve any useful purpose, as it will not be possible to deliver all the supply of water Hence he has recommended the purchase of two 7½ H P motors for the pumping plant at the place at a total estimated Cost of Rs 1400/ the Cost is proposed to be met by Govt and the Local Body in equal proportions

2) Neither the DC nor the Md Council have stated whether provision is made in the Current for the purpose in the Current years budget of the Mdly, Nor as to the source from which the Md quota is to be met has been pointed out.

3) The DC recommends sanction to a Grant of Rs 700/ out of the Current years Water Supply Grant for purchase of two 7½ HP motors for the Pumping plant of the Davangere water works

Submitted for orders—

Gen Dy Davangere is a pretty rich Municipality
